LET EVERY MOTHER USE
THE GRAEFENBERG CHILDREN'S PANACEA.
(A True friend to children.)

When the child is troubled with griping and flatulency.
When there is looseness of the bowels, or where the discharge is scanty, of a bad color or smell,
When there are eruptions, or when the skin is red and excoriated.
When the child is attacked with Measles, Convulsions, Cholera Infantum or Worms, this remedy is a certain cure, and its use will relieve the anxious mind of the mother at once.
When the child starts in its sleep and wakes suddenly with a fixed or frightened look.
When there are Worms this remedy is the most certain cure ever known.
Let it be the first thing resorted to in all cases of children's diseases and almost instant relief will be experienced.

### S. ROSE & CO., BOMBAY.

THE PAPYROGRAPH,
INVALUABLE FOR OFFICIAL, MERCANTILE, AND FOR GENERAL USE
EASY, CHEAP, CLEANLY, AND RAPID IN EXECUTION.
BY THIS PROCESS 500 OR MORE PERMANENT FACSIMILE IMPRESSIONS OF
Circulars, Designs, Office Forms, Prices Current, Market Reports, Music, Programmes, Menus, etc., etc.
MAY BE RAPIDLY AND CHEAPLY
PRINTED IN AN ORDINARY COPYING PRESS.

The process is simple, economical, and cleanly, and may be easily worked by a Native Assistant.

The process is already in use in some hundreds of Public and Private Offices including the INDIA OFFICE, the HORSE GUARDS, the P. and O. Steam Navigation Company, various Railways, Banks, &c., and has proved an undoubted success.

The Operations are very easily learnt, and are very cleanly. The Original Outlay is soon recouped to the purchaser by the saving in printers' and lithographers' bills, and where secrecy is required the process will be found invaluable.

No. 1.—QUARTO SIZE, 12 by 9½ inches, to fit a Quarto Copying Press, and to print both Quarto and Octavo sizes, with Ink, &c., complete, Chest, about 19 by 16 by 9 inches. Cash Rs. 84.

THE CHEAP POPULAR PAPYROGRAPH.

This Set does not contain a Printing Slide, the impressions being taken in a Printing Case. Cash Rs. 32.

The Materials supplied with the various Sets of the Papyrograph are calculated to last for a considerable time. Fresh Materials for re-furnishing, when the first supply is exhausted, may be obtained at a moderate cost.

### THE "FACSIMILE" PRINTING PROCESS.

(BYFORD'S PATENT.)

By this novel invention a number of Facsimile Copies of Circulars, Price Lists, Drawings, &c., written with the Patent Ink are printed in a few minutes on any kind of dry paper with the aid of the ordinary Copying Press, the original writing remaining uninjured. The process has been for some time in operation in the Board of Trade, the Science and Art Department, South Kensington Museum, Indian Post Office, principal Railways and other Public Companies' Offices, where it has been thoroughly tested and found most useful and efficient. The simplicity of working and the clearness and exactitude of the copies produced, render invention most valuable in all cases where economy of time and labour is an object. It is especially suited to the requirements of the Brokers, Merchants, Railway Companies, Solicitors, and others who require copies of documents produced more speedily than they can be by ordinary printing.

The cost is nominal, the only apparatus required [beyond the appliances found in every counting-house] being the Printing Folio, Transfer Paper, and the Patent Ink.

The apparatus consists of the printing pad, a supply of transfer paper, a bottle of patent ink, the impression plate, and damping brush of improved construction.

### S. ROSE & Co., 9, RAMPART ROW, BOMBAY.

## HAMILTON AND CO.

JEWELLERS AND SILVERSMITHS, WATCH AND CLOCK MAKERS.
ESTABLISHED UNDER THE AUSPICES OF GOVERNMENT, A. D. 1808.

### ELECTRO-PLATED WARE.

*Useful and Pretty Wedding Presents.*

### "OUR FAITHFUL FRIEND."

A pretty little Breakfast frame in Electro-plate, a dog carrying in his mouth a basket for salt, on either side a mustard and pepper pot. Price 36 Cash.

### THE "DUMB WAITER."

THE PRINCE OF WALES' BEAR.

A novelty in a Breakfast or corner cruet made in best Electro Silver plate, with richly Cut Glass Bottles, and Spoon complete.

At St. Petersburg, in January, 1874, during the marriage rejoicings of the Duke of Edinburgh, imperial bear hunts were one of the chief features of the festivities. A bear shot by the Prince of Wales has been mounted, by order of His Royal Highness, by Mr. Edwin Ward, the naturalist, and now stands in Marlborough House. The bear is so designed as to form a novel and useful, to say nothing of an inimitably discreet Dumb Waiter. He stands erect on his feet (like the tutular deity of Bern when offered a cabbage leaf,) and carries in his fore-paws a large tray available for wine, cigars, or dessert. Another bear has been similarly mounted by Mr. Ward for Lord Suffield. Through an oversight of his guide Lord Suffield, while hunting, came suddenly upon a snowed-up cave, in which were lying a she-bear and two cubs. The danger was imminent, as Mrs. Bruin appeared infuriated at the intrusion, but by a happy shot in the breast His Lordship killed her at once. The two cubs were left to grow up for further sport, as they were considered big enough to take care of themselves, but the skin and skull of the mother were secured and forwarded to London.

Cash price with Bear Silvered or oxydised Rs. 36.

### "EARLY MORNING."

A very pretty Breakfast frame—Milkmaid with Yoke, two Milk Pans for Pepper and Mustard, and Skimming Tub for Salt with Spoons complete. Rs. 50 cash.

### "THE CHANTICLEER."

A unique Breakfast frame with "Cock" Pepper Pot, Butter Tub for Salt, Churn for Mustard, with Spoons complete. Rs. 35 Cash.

### "THE WHISKY STAND."

A neat little Breakfast frame in Electro-Plate with an Oxydised Whisky Bottle for Pepper Pot, Warm Water Jug for Mustard Pot, Tumbler with Spoon for Salt. Price Rs. 33 Cash.

### "HAPPY AS A KING."

A pretty little Breakfast frame with Boy Swinging on Gate, Electro-Plated Salt Pepper and Mustard Pot, Best Cut Glass. Rs. 42 cash.

### "THE CAROL BIRD."

A handsome corner Breakfast frame, with bird in full song, Cut Glass Pepper and Mustard Pots, E. P. Salt Cellar with Spoons complete. Cash Rs. 44.

24th March 1879. Rampart Row.

## NEW ADVERTISEMENTS.

### WILSON'S GREAT WORLD CIRCUS.

THIS (MONDAY) EVENING AT 9 SHARP.

GRAND CHANGE OF PROGRAMME.

THE GREAT GREGORYS,
ARTHUR AND WILLIAM,
will appear for the second time in Bombay as
THE FLYING MEN,
outstrip all the laws of gravity at defiance. Pronounced by the Public, the Profession, and the *literatti* of both hemispheres to be the most wonderful, marvellous and talented gymnastic performance ever witnessed.

MISS LAURINA G

# COMMERCIAL INTELLIGENCE.

SATURDAY EVENING, 22ND MARCH 1879.

Our various import markets have shown a very quiet tone throughout the week, but in exports we have had more activity than at any previous part of the season, and operations have only been limited by the small supplies of produce as yet available. Cotton in Liverpool has met an exceptionally active demand, and as usual in such a case our prices have more than responded to the rise, an improvement of 3-16d. to ¼d per lb. having brought about an advance of Rs. 12 to Rs. 15 per candy. This state of affairs could not last very long in the face of large arrivals, but these are still small and must, we fear, continue so for at least another week. Afterwards much larger figures are confidently expected, and although the Clearances up to date are about 102,000 bales behind the same period last year, we are still of opinion that the totals for the six months ending 30th June will not show a very wide discrepancy. Of the new crops of Linseed, Rapeseed and Wheat, which next to Cotton may be regarded as our staple exports, almost nothing has yet come forward so that we have practically our shipping season before us. It is quite possible therefore in fact, we should say probable, that we may see something like a reversal of the existing state of affairs at no distant date, viz:—dearer money, higher exchange, and better homeward freights. All these have been so long talked of that people had in some measure begun to despair of seeing them realised this season, but the outlook is now very different from what it was only a few weeks ago, and it must always be borne in mind that the fact of the active part of the season being so long delayed is likely to render the change so much more marked.

MONEY.—The last published return of the Bank of Bombay for the week ending on the 15th instant showed an increase in the Cash Balance of upwards of 7½ lacs, and no change has been made in rates of discount and interest. A noticeable feature in the return, however, was an increase of 8½ lacs in Bills Discounted, indicating larger drafts from up-country against produce, and in all probability this item will go on increasing from week to week. This and other trade demands in fact will probably augment very rapidly and with a Cash Balance of only 140 lacs, the likelihood of dearer money is considerable.

EXCHANGE.—A very large business has been done in Sterling this week, and rates have undergone some rapid fluctuations. Rates closed for last mail on the basis of 1s. 7d. for demand Bank Bills, and 1s. 7 5-16d. for three months' Credits, but on the following day, with weak advices from London respecting Silver and very few private bills offering, a partial decline of 1-16d. took place. On Wednesday the quotation for Silver came again lower, and a further fall of 1-16d. was established. On Thursday we learned the result of the biddings for Council drafts, viz:—that out of the 35 lakhs offered only Rs. 18,80,000 had been taken up at 1s. 6¾d., and a very depressed feeling was at first apparent, rates touching the lowest point of the week at 1s. 6 13-16d. for demand Bank Bills, and 1s. 7 5-32d. for three months' Credits. During the day, however, a recovery of 1-16d. in Bank and 1-32d. in private paper was established owing to the increased amount of the latter offering, and on Friday another rise of 1-16d took place, which was repeated again on Saturday, making closing quotations:—Bank Bills on demand 1s. 7d., 6 months' sight 1s. 7⅞d., Credits 3 months' sight 1s. 7 5-16 to ¾d., 6 months' 1s. 7⅛d., Docus 3 months' 1s. 7¾d., 6 months' sight 1s. 7 9-16d. per rupee.

The demand for remittance has not been active, so that there has been comparitively little done in Bank Bills, but the low rates have induced large sales of private bills, both ready and for future delivery, in fact there has been more done in the week than in the previous fortnight. Nor do we think this activity likely to be exceptional. On the contrary every day ought to see a larger business doing, and Cotton, moreover, is increasing in value to an extent which will be perceptible in the amount required to finance the season. The advance during the past week alone will add something like 20 lacs to our requirements betwixt now and the end of June, and it seems not unlikely that this increase may be doubled from the way things are going. Altogether we think there are good grounds for anticipating that the rupee has touched its lowest value for a time, and although the improvement may only be temporary, it may prove more extensive than people are inclined to expect, and we have moreover always the possibility of some Government action arising out of the present agitation at home which might place an entirely different complexion on the aspect of the question for the future.

In sympathy with the movements in the Exchange value of the rupee Gold rapidly advanced from Rs. 19-14 to Rs. 21-1 per tola, at which latter rate purchases were made for export on Thursday morning, but since then the rate has again receded to Rs. 19-14.

On Calcutta there has been very little doing this week, and rates have remained unaltered at ¼ per cent. premium for demand, and 1½ per cent. discount ed 60 days' sight.

On China, in the absence of business, no reliable quotation can be given. From Hongkong the latest quotation by wire for 6 months' sight Bank Bills on London is 2s. 6¼d. per dollar, and from Shanghai 4s. 10¾d. per tael.

GOVERNMENT SECURITIES.—The more the Budget is looked at the less holders of Government Paper seem to like it, and the depression in the market has been increased this week by the anxiety shown to sell and the absence of buyers. Transactions have been almost entirely confined to small pieces in the bazaar, and these necessarily constitute the only guide to quotations, which we call Rs. 92 to Rs. 92½ for Fours and Rs. 97 for New Fours-and-a-half.

SHARES.—The market has been firm throughout, and in Spinning and Weaving Companies further material rise has been established, but in other shares the movement has been as a rule of a retrograde character. Exceptions have been important. In *Banks* we notice a fall of 1½ per cent., the closing rate being Rs. 663½. National of India have also declined Rs. 6 per share. In *Land Companies* we have to notice an advance of Rs. 2 in Freres and Rs. 15 in Port Canning. In *Press Companies* there is little actual business, but a nominal improvement has taken place in the values of the shares as the Cotton season advances. Albert Company of Kurrachee, Colaba Press, and Sind and Punjaub have risen Rs. 50, East India Rs. 40, Akbar and Fort Press Rs. 25, Apollo and Berar Rs. 10, while Indian has declined Rs. 10, and Mofussil Rs. 5 per share in the week. In *Spinning and Weaving Companies* there has been a general advance, arising, we think, more from previous low prices having attracted buyers than from any improvement in the working of the industry; moreover, some additional strength has been given to the market by a report that comparitively high offers have been received from England for some of the mills now in liquidation. We note an advance during the week of Rs. 100 in Alliance, and Prince of Wales, Rs. 70 in Dhurrumsey, Rs. 60 in Jewraj Balloo, Rs. 50 in Bombay United and Hindustan, Rs. 45 in Great Eastern, Rs. 40 in Coorla, Khandaish, and Morarjee Goculdas, Rs. 30 in Khatau Makanjee and Manockjee Petit, Rs. 25 in National, Rs. 20 in Oriental and Sassoon, Rs. 15 in Madras United, and Rs. 5 per share in Bombay Hemp and Jute and Mazagon. The only decline during the week is Rs. 25 per share in Hyderabad. Amongst *Miscellaneous* companies we notice a recovery of Rs. 15 per share in Bombay and Burmah Trading Co.

PIECE GOODS.—The market has not undergone any material change this week, the ruling feature having been extreme quietness. From the bazaar the Clearances have never reached the same scale as before the Holi holidays, the estimated business since last mail being only 1,500 packages, and from first hands exclusive of indents about 250 packages. Prices continue unmoved, with few exceptions; but low exchange, moderate supplies from home, and advancing prices in Manchester, are all influences which must eventually have some effect in improving rupee prices, notwithstanding the comparatively small consumption.

GREY GOODS.—In Shirtings the demand continues to run mainly on 8¼lb. 39 inch of which the purchases for the Delhi and Cawnpore markets have been considerable and prices are the turn in favour of sellers, but for other weights or 36 inch there is only a moderate enquiry. In the wider makes, 45 inch goods are quiet but steady, 50 and 60 inch in poor request at previous prices. Of Printers and Madapolams the clearances continue small and there is no appreciable change in rates. T cloths, if anything, are rather more difficult of sale and slightly weaker in price. Mulls and Jaconets are more enquired for but so far prices have not improved. In Dhoties there is a moderate business doing at unchanged rates. *Bleached* Goods on the whole are not active, although Shirtings, Jaconets and Mulls meet about an average sale. *Dyed, Printed and T. Red* cloths exhibit no symptoms of improvement, supplies being still excessive and the demand insignificant. Of *Imported* manufactured goods the clearances this week are about 700 packages but at no improvement in account to about 700 packages but at no improvement in account to

TWIST.—A firm, steady tone pervades the market. stocks being comparitively light, but dealers appear to have fully supplied their wants during the active buying a fortnight ago, and only moderate business is now passing without change in rates.

METALS.—*Copper.*—The demand is inactive and but should probably be one coupled with low exchange we had to report a further decline in price. *Yellow Metal* is dull at previous quotations. *Iron* has been in slightly better request of late, and with rather more doing values have recover As. 4 to As. 8 per candy.

COALS.—There is no apparent increase in the demand, but the continuance of light supplies from home keeps the market steady and values are fairly supported. The only transaction reported to arrive this week is the sale of a cargo of Davison's West Hartley per Monmouthshire, February sailing, at Rs. 21 per ton alongside.

COTTON.—With daily stonger accounts from Liverpool, we have had a continuance of active markets throughout the week, at rapidly advancing rates, closing quotations showing a general advance of Rs. 10 to Rs. 12 per candy. The transactions reported for export in Bombay exclusive of up-country purchases make up a total of about 20,000 bales, but the figures would have been much larger had sellers not been restricted by the continuance of small supplies. The demand has run mainly on Broach for this and next month's delivery, of which about 8,000 bales have changed hands, the excellent quality of the crop having attracted attention, but there has also been a very strong enquiry for all grades of Omras of which the remainder of the purchases are mainly made up, very little having yet been done in Dholleras of which only a few small sample lots have yet come to hand.

The *Receipts* of Cotton from up-country show the following comparisons with the two previous seasons:—

| | 1879. | 1878. | 1877. |
|---|---|---|---|
| Week's Receipts | 23,984 | 38,986 | 52 974 |
| Total since 1st Sept. | 286,625 | 431,336 | 477,154 |

The *Clearances* for the same period since the departure of last Mail have been 19,196 bales, making a total since 1st January of 130,669 bales against 232,514 bales for the corresponding period last year, or a deficiency of 101,845 bales. This figure will probably be increased during the next week, but afterwards we look for it being steadily reduced, as we shall then begin to receive supplies of Broach in quantity and also some Dholleras, whereas we have hitherto been almost entirely dependent on Omrawuttee. Of Dharwar and Compta we are not likely to have any supplies until towards the end of April, but the rep ts concerning these descriptions are rather more favorable than formerly.

The following are to-day's quotations for full pressed Cotton with the equivalent in Sterling Cost and Freight to Liverpool via Canal, without Commission:—

| | | Per Candy. | Per lb. C. & F. |
|---|---|---|---|
| New Good Hingunghaut (Nominal) | Ready | Rs. 212 | = 5 3/16d. |
| ,, F.G.F. do. | do. do. | ,, 208 | = 5 1/16d. |
| ,, Good M. G. Broach | April delivery | ,, 212 | = 5 3/16d. |
| ,, ,, Oomra | Ready | ,, 201 | = 4 15/16d. |
| ,, Do. | April delivery | ,, 200 | = 4 15/16d. |
| ,, F.G.F. Do. | Ready | ,, 196 | = 4 13/16d. |
| ,, Do. Do. | April delivery | ,, 193 | = 4¾d. |
| ,, G.F. Do | Ready | ,, 190 | = 4 11/16d. |
| ,, Do. Do. | April delivery | ,, 188 | = 4¾d. |
| ,, Good Dholleras | ,, | ,, 200 | = 4 15/16d. |
| ,, F.G.F. Do. | ,, | ,, 195 | = 4 13/16d. |
| ,, G.F. Do. | ,, | ,, 190 | = 4 11/16d. |
| ,, Ginned Dharwar | May | ,, 198 | = 4¾d. |
| ,, Compta | do. | ,, | No quotation. |

The visible supply of Cotton for all Europe on the 21st instant compares with the corresponding date on the two previous years as follows:—

| | 1879. | 1878. | 1877. |
|---|---|---|---|
| Total supply of all kinds. | 2,400,000 | 2,657,110 | 3,002,760 |
| ,, ,, Surats. | 234,000 | 279,560 | 334,000 |
| For the U.K. only the figures are:— | | | |
| Stock in Liverpool | 567,000 | 729,760 | 1,070,190 |
| Do. London | 62,000 | 9,100 | 26,070 |
| American afloat | 310,000 | 217,000 | 214,000 |
| E. Indian ,, | 60,000 | 80,000 | 128,000 |
| Total | 999,000 | 1,035,860 | 1,438,260 |
| Price of Mid. Orleans | 5¾d. | 6 1-16d. | 6 7-16d. |
| ,, Fair Dhollera | 4 3d. | 4 15-16d. | 5¾d. |
| Difference | 1 1-4d. | 1 5-16d. | 1 5-16d. |

The American crop figures to date give the following comparisons with the two previous seasons:—

| | 1879. | 1878. | 1877. |
|---|---|---|---|
| Week's Receipts | 69,000 | 79,000 | 33,000 |
| ,, Exports to U K | 57,000 | 58,000 | 43,000 |
| ,, ,, Continent. | 34,000 | 62,000 | 21,000 |
| Total Receipts since 1 Sept. | 4,042,000 | 3,809,000 | 3,682,000 |
| ,, Exports to U K | 1,602,000 | 1,477,000 | 1,602,30 |
| ,, ,, Continent. | 1,232,000 | 1059,000 | 748,000 |
| ,, Stock in the Ports. | 580,000 | 667,000 | 753,00 |

SEEDS.—*Linseed*,—Supplies are still small, and a very active demand being manifested prices are advanced As. 2 to As. 3 per cwt. *Rapeseed*.—New Crop is now beginning to come forward in small quantities and the quality being remarkably good has found purchasers at Rs. 7-4 per cwt. *Gingelly* is still in strong demand and prices have further advanced under the influence of decreased supplies. Quotations are Rs. 41 to Rs. 45 per cantly according to quality.

## BENGAL GOVERNMEN

# LATEST INTELLIGENCE

(FROM OUR SPECIAL CORRESPONDENTS.)

## MOVEMENTS OF MILITARY OFFICERS.

KURRACHEE, MARCH 22.

General Primrose left here yesterday for Bombay. Brigadier General Howard-Vyse will return to Kurrachee at the end of this month, when Brigadier General Brice goes to Belgaum. Major Burnett's battery from Dadur and Major Murray's battery from Jacobabad leave Kurrachee for Bombay on the 25th instant.

Colonel Ravis, 1st Baluchis, and Major Drysdale, Royal Artillery, have obtained furlough to England.

The Commissioner of Sind remains at Sukkur until May to push forward supplies for he front.

Rumours of disturbances at Lus Boyla are prevalent. Jam Ali has slaughtered an African and five women of his harem, and dragged their bodies through the bazar and deposited them in a pit.

## LIVERPOOL COTTON MARKET.

LIVERPOOL, MARCH 23, 4-5 P.M.

Owing to favourable American figures Americans and Surats to arrive have advanced 1-16d. On the spot Surats are 1-16d. to ⅛d. higher.

[REUTER'S TELEGRAMS.]

(By Red Sea Cable.)

## THE BUDGET.

LONDON, MARCH 22.

In the House of Commons last night the Chancellor of the Exchequer announced that the Budget will be submitted on April 3rd.

## OFFICIAL CORRESPONDENCE ON THE ZULU WAR.

Official correspondence on affairs at the Cape has been published. Lord Chelmsford, writing to the Secretary of State for War (Colonel Stanley) on February 9th, makes a request to be superseded. In this request the Governor and High Commissioner of Cape Colony (Sir Bartle Frere) concurs, and has pointed out in his letter that the officer selected to replace Lord Chelmsford should also be fitted to succeed himself as Governor and High Commissioner.

A letter from Sir Michael Hicks-Beach (Secretary of State for the Colonies), dated March 19th, censures the policy of Sir Bartle Frere, and expresses a hope that his future course of action will prevent the recurrence of any complaint, and states that the Government has no desire to withdraw their confidence from him at the present crisis.

Another letter from the same Minister, dated March 20th, says that the British Government itself will decide the conditions of peace, and is not disposed to sanction annexation.

Lt. Bromhead, of the 2nd Battalion of the 24th, and Lt. Chard, R.E., the gallant defenders of Borke's Drift after the destruction of the British Camp by the Zulus, have been gazetted Brevet Majors.

Consols closed at 96⅞, being a fall of ⅛ on previous day's quotation.

## THE CAPE.

LONDON, MARCH 23.

News from the Cape dated March 5th states, that there has been no further fighting, but that Moirosi, the Chief of Basuto Land, is in open rebellion.

## PARLIAMENTARY.

The Under-Secretary of State for India has given notice that on the 25th instant he will introduce a Bill to enable the Secretary of State for India to raise money in England for service in India.

## TROOPSHIP MOVEMENTS.

H. M. Troopship Crocodile, homeward bound, and H.M.'s Troopship Jumna, outward bound, have passed through the Suez Canal.

## THE FRENCH ASSEMBLY.

PARIS, MARCH 22.

The Chamber of Deputies has voted by a large majority a resolution to amend the constitution, empowering the two Chambers to hold their sittings at Paris.

## STEAMER MOVEMENT.

LIVERPOOL, MARCH 21.

The Anchor Line steamer Trinacria left here for Bombay the day before yesterday.

## STEAMER REPORTS.

GALLE, MARCH 22, 2-59 P.M.

Mail steamer Nizam from Bombay arrived.

MADRAS, MARCH 22, 11-10 A.M.

Hongkong, 22nd—Manilla Mail, 11th Monday.

General Fraser, Public Works Secretary to the Government of India, leaves Bombay to-day for Kurrachee, *en route* to Simla. During his stay in Bombay General Fraser has had frequent conferences with the local authorities regarding the defences of the island and harbour.

We hear that the Bombay Police have traced Mr. Nursey Kesowjee to Goa, and that, although the new treaty with Portugal is not yet in force, the Governor-General of Goa is anxious to surrender Mr. Nursey to the British Government, if that gentleman can be found anywhere in Portuguese territory.

The farewell dinner given by the Byculla Club on Saturday evening to the Hon. J. Gibbs was attended by a large number of members of the Club, amongst those present being H. E. the Governor (Sir R. Temple), H. E. the Commander-in-Chief (Lieut. General Warre), the Chief Justice (Sir Michael Westropp), and the Right Rev. the Bishop of Bombay (Dr. Mylne). A report of the proceedings will be published to-morrow.

*The Pioneer*—One intelligent view of the possible movements of the Peshawur Field Force is briefly expressed in a private letter from Jallalabad. The writer says:—"I suppose we shall pass the summer at Gundamuk. We cannot go back, as marching in the hot weather and rains through the Punjab would be fearful work. And we cannot go on unless the 3rd Division comes up as far as Jallalabad, as nothing less than two Divisions would be good enough to keep open our communications along the 100 miles that separate this from Kabul, and occupy Kabul as well." Gundamuk will be much pleasanter quarters than Jallalabad for Sir Sam Browne's Division, and the neighbouring hills will no doubt be used as sanataria for weakly soldiers. If the troops are to stay there all the summer, however, the position should be very strongly fortified.

The divorce case of Robertson *vs.* Robertson and Colonel Marshall has been heard by the Recorder at Rangoon, but though a decree was given for the petitioner, no damages were given, as Colonel Marshall had already paid Rs. 1,500 as compensation in the criminal case.

General Grant arrived at Rangoon on Wednesday last, and was received by the Chief Commissioner and the leading Europeans and Burmese on the wharf, with the Volunteers as a guard of honour.

The Artillery, 43rd Regiment, a wing of the 89th, the F. Company of Sappers, and the 31st Madras Light Infantry, have been ordered to Thyetmyo. A wing of the 19th by rail to Prome, follows.

The following letter appears in the *Pioneer*:—"As the Government of India in their Resolution of the Financial Department, No. 1249 of 13th March 1879 have carried out No. 1 principle regarding Free Trade, published in para. 196 of that Resolution, why shouldnot the Home Government carry out the same with regard to products of this country, by paying over the amount of the English import duty on Indian tea and coffee to the credit of the Indian Government in England, and thereby give a little relief to Indian exchange? Can you give any reason why Free Trade is good for English goods in India, and not for Indian goods in England?"

The glaring disproportion in the postal rates, *viz.* one anna and a quarter, from Goa to British India, and only half an anna from the latter country to the former, is about to be remedied, the Director of the Goa Post Office having notified a resolution to that effect.

There has been a difficulty, we (*Civil and Military Gazette*) understand, in advancing the heavy battery ordered to Jallalabad. It has been detained at Ali Musjid for some time, the rain adding to the material obstacle of a bad road.

A private letter from an officer with General Stewart's army gives the following spalling account of the insanitary condition of the line of communications between Jacobabad and Kandahar:—"I assure you it surpasses anything you ever heard or read about, and the farther we march the worse things seem to be. Thousands (I use the word advisedly) of dead camels in every stage of decomposition lie along the road. I do not exaggerate when I say that there is at least one in every fifty yards from Quetta to Kandahar. Around encamping grounds they lie simply in noisome heaps, and the stench that poisons the air is something horrible. It seems that it is nobody's business to bury these dead carcasses, and as they go on accumulating, it is not hard to prophesy what must be the inevitable result of so total a disregard of all laws of hygiene as soon as the hot season sets in. I am simply appalled at the state of things as I see them, and am filled with astonishment that it can exist under a civilized Government. What are the Sanitary Inspectors doing? Cholera or the plague itself must certainly follow all this, and I suppose when some terrible epidemic does break out, Government, and those responsible, will take some steps to endeavour to mitigate an evil which should not have been neglected so long." We (*Civil and Military Gazette*) can add nothing to the loathsome picture which the above account draws, but we may add the expression of a hope that something may be done before the too probable penalty is exacted.

The *Civil and Military Gazette*:—"We hear that very general dissatisfaction has been created throughout the Khyber column by a report that General Tytler, a deservedly popular and able officer, has been superseded in the command of the Second Brigade, 1st Division, in favour of General Appleyard; General Tytler being employed in the less conspicuous command of a Brigade occupying posts in rear of the forthcoming advance. There is a pithy proverb of the inadvisability of changing horses in the middle of a ford, which should commend itself to those who are responsible for the conduct of the army of invasion at this juncture. We cannot believe that any change is judicious or called for, which shifts General Officers in command immediately previous to what may be a renewal of the campaign. To General Tytler especially, as an officer who has completely won and fully deserves the confidence of every soldier in his brigade, the change is a simple injustice, which has the demerit of irritating without improving the efficiency of the force." The *Pioneer* says:—"General Tytler is one of the best soldiers in the Division; his brigade is devoted to him, his achievements during the campaign, so far as any officer has had scope for achievements, have been distinguished, and the shock by himself, army from what would have been if not a disaster, a very disastrous victory, at Ali Musjid, by his energy in the flank march, and in the first Bazar expedition he earned the emphatic approval of qualified critics. The exaltation of Brigadier Appleyard at his expense seems a very lamentable mistake of, which we have, probably, not yet heard the last."

The *Pioneer*:—A report by the Government of the North-West Provinces and Oudh on the prospects of the harvest was made to Government of India on the 1st of this month. The broad results of the latest detailed information then received from district officers was that the crops on irrigated lands were fairly good, while on unirrigated land they were extremely poor. The estimates as to the probable outturn in different districts varied from six to twelve-annas. Taking the provinces as a whole, the local Government conceived that there might be an eight-anna, or at the outside a ten-anna crop. Since then, however, the good rain there has been in the Punjab will greatly have ameliorated the situation. The rise of prices had been checked, at the date of the report quoted, by some light rain that had then fallen, and the less in those province are likely to be called on to supply other needs than their own, the less traders will be able to force up the rates.

The *Civil and Military Gazette*:—We understand that a rumour was in existence in England that the gallant but unfortunate explorer Major Butler had preferred a claim for expenses amounting to twenty thousand rupees, the cost of his recent expedition, and that the magnitude of the amount had caused its rejection by the Government. We are able to state, however, that the claim for an entire year's expenses amounted only to £400, not surely an unreasonable sum. But we can hear of no steps being taken to relieve Major Butler of the burden of their liquidation.

The *Indian Daily News*:—During the past week several indigo factories, situated in the Benares district, and owned by the late firm of W. Nicol and Co., Bombay, have been sold by public auction at Benares. The properties fetched good prices. Several other factories are to be sold at Benares during the ensuing week on behalf of the creditors of the above firm.

## GOLD OR SILVER COINAGE.

TO THE EDITOR OF THE "PIONEER."

SIR,—A report has spread abroad that the Government of India are thinking of adopting either Major Smith's scheme of coining gold, or Colonel Chesney's scheme of not coining silver. It is to be hoped that before trying either plan the Government will read over para. 196 of their own Budget for 1879-80. Words of wisdom are written there which may be quoted—" but one thing at least is certain; under abnormal economic conditions such as those now existing, everything interferes with the natural operations of trade, everything which imposes artificial restrictions, or gives artificial advantages, cannot fail to be mischievous."

M. D.

## THE RUMPA RIOT.

(*Madras Mail.*)

We learn that two Companies of the 39th Madras Native Infantry, under the command of Major Wroughton, have been ordered to enter the Rompa country, where they will be held in reserve, in case the Police force should not be strong enough to put down the rioters. There are already about 250 police at Chodavaram, and Major Morris, the Superintendent, advances with a party to Kotah, as soon as he has collected the necessary supply of provisions.

A telegram dated Rajahmundry, 20th March says, "The rebels are still hovering about, but molesting few reliefs. The village of Boopathapalum was fired by the Police on the 17th instant. Mr. May, with 50 Constables, sent on to Kotah, met, it is believed, with strong resistance. Inspector Fawcett and party were also attacked. There was no loss on our side. The remaining two companies of the 39th N. I. arrived this morning. The arrival of the troops is awaited at Chodavaram, when offensive measures will be taken. The ten Policemen are still missing. The Special Commissioner, Colonel Cunliffe, has proceeded to Chodavaram. The Deputy Inspector General of Police, Colonel Robertson, is here."

We learn from the *Indian Church Gazette* that the Rev. G. M. Gordon, C.M.S., is now returning from Kandahar, whither he recently went with the forces as chaplain. He, and Mr. Stapleton, the architect to the Church Missionary Society, will meet the Rev. Arthur Lewis and Mr. Jukes, either at Mooltan or at Dehra Ghazee Khan, and will at once proceed to open the new mission to the Beloochees.

From some correspondence which has lately appeared in the columns of a contemporary it appears that our Teuton friends are actually condescending to teach us how to cook. Now, we would not disparge the graces and virtues of our friend Hans. He is a great soldier. As a smokist, so far as the length of his pipe goes—we do not think much of dry-hay tobacco—he is a success. It is true that in his own land he generally disdains pocket-handkerchiefs and small-tooth combs, and other luxuries. Still, he is a good and a worthy fellow, and one entitled to considerable respect in the family of nations. For all that, however, when he comes to England and says he can teach us how to roast and boil, we must be allowed to—smile. Saurkraut is a delicacy which would have slain Epicurus, and the smell of a single spoonful might have been relied on to knock Sybaris into a state of utter smash. German cookery, like the Creation or the last Waterloo Meeting, is something unique. It must not be transplanted to a foreign soil for fear of spoiling the flavour. Thus while we admire Heinrich and his kin, we object to his soup, and when, as he is doing now, he asserts that lentils are the manna of the ancients, we blandly say, "Thanks, no," and pass the dish to our next door neighbour.

## THE DISTRIBUTION OF PRIZES ON SATURDAY.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—In the distribution of prizes by His Excellency the Governor on Saturday, one set of prizes was awarded to men of the native infantry regiments stationed in Bombay. Men of the 9th Regiment N. I. only appeared as winners. I think it due to the other regiments to state that they neither of them sent men to compete. I hope next year if the same chance is offered that we shall see them all well represented.

March 23. ONE OF THE NINTH.

## PERSONAL EXPERIENCE OF A POLICE CELL.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I beg to draw the attention of the Health Officer to the filthy state of the temporary prisons attached to the police courts. I was a few days ago a victim to the mistake of some people belonging to the Girgaon Police Court, and was, without the knowledge of the Magistrate, incarcerated in a narrow and most dirty room, which I am confident must be one of the places which breed many of those pestilential diseases which plague the people of this city. The room measured about 17 by 12, and in it were imprisoned about a dozen persons, who all made use of a corner thereof—designed for the purpose—as a closet. "Altogether the place is a disgrace to some one, and the Health Officer will do well to extend his vigilant eye to it. VERITAS.

# BOMBAY.

The following programme of music will be played by the band of the 9th Regiment N. I. at the Esplanade bandstand this evening:—

| | |
|---|---|
| March | Bandmaster Colonnaden |
| Overture | La Dame Blanche — Boieldien. |
| Selection | La Petite Marie — Lecocq. |
| Valse | Les Lieder — Gung'l. |
| Quadrille | Promenade — Coote. |
| Galop | Lustige Bruder — Faust. |

Her Majesty's s.s. Ready, Commander H. Edwards, 592 tons, and carrying 4 guns, arrived in harbour yesterday afternoon. She left Aden on the 10th inst.

The transport sailing ship Czarewitch, Captain Elton, arrived in harbour yesterday from Vingorla, which port she left on the 18th inst.

The Portuguese troopship India, 828 tons, Captain A. D. Fedrons, arrived in harbour yesterday from Goa, which port she left on the 22nd inst.

The names of Mr. Arthur Barrett, Professor Elphinstone College, and Mr. Heerjeebhoy Hormusjee Shroff were accidentally omitted from the list of gentlemen who attended His Excellency the Governor's Levée on Saturday.

False scales and weights.—Waman Gunesh, the owner of a retail wood depot, was on Saturday fined Rs. 20 by Mr. W. Webb for having in his possession a pair of false scales and four false weights, without any reasonable or satisfactory excuse.

Causing mischief.—George Thomson and William Hailes were on Saturday last fined Rs. 10 each, or in default to fourteen days' rigorous imprisonment, by Mr. W. Webb on being adjudged guilty of committing mischief, and thereby causing damage to the amount of Rs. 10 to the property of Rustomjee Byramjee.

Committed to the Sessions.—Yacoob Ismail, a reputed thief, was on Saturday committed by Mr. C. P. Cooper for trial at the next Criminal Sessions of the High Court on a charge of theft, in respect of six pieces of wearing apparel, valued at Rs. 3, the property of Eyam Sooner. Two other noted characters, named Deen Mahomed Ebraim and Shaik Ebrahim Abdool, were also committed by the same Magistrate for trial at the next Criminal Sessions of the High Court on a charge of theft.

The late murder in the native town.—On Friday last Ahmed Tyeb was brought up on remand and charged before Mr. Nana Morojee, at the Fort Police Court, with committing murder by wilfully and maliciously causing the death of Dadoo Shaik Emaum on the 6th instant. Mr. R. V. Hearn, the Public Prosecutor, appeared to conduct the case for the prosecution; the prisoner was undefended. His Worship, after the evidence for the prosecution was closed, which was similar to that adduced before the Coroner, formally committed the prisoner for trial at the ensuing Criminal Sessions of the High Court.

A case came before the Court at Jubbulpur the other day, which reflects little credit upon some Railway employés. It appears that a destitute European went to the Rev. Mr. Michel, asking aid to carry him on to Bombay. Mr. Michel gave him a letter or card to the railway authorities, telling him it would procure his passage to Bhosawul, where he would be passed on to Bombay. He accordingly took the letter to the station, where amidst a burst of laughter from a lot of grinning Baboos and others he received a ticket. Upon looking at it he ascertained the cause of their mirth, viz. that the Baboo before giving the ticket had written upon it in large characters the word loafer. As this did not tend to ease his mind or pacify his temper, the consequence was he let out a right-hander at Mr. Baboo. The Baboo summoned him before the Deputy Magistrate, where he was sentenced to a fine of five rupees or fifteen days' imprisonment. The fine was paid by subscription among a few who stood outside the Court. It is said that the Baboo did this (writing the word "loafer" on the ticket) in compliance with an order!—*Railway Gazette.*

The Traffic on the G. I. P. Railway.—The decrease in goods traffic on the G. I. P. Railway for the week ending 15th March 1879 was 3,91,775 maunds, and in money Rs. 2,29,300. The quantities carried and the earnings compare with 1878 as follows:—

| Description. | Week ending 15th Mar. 1879. | Week ending 16th Mar. 1878. | Increase. | Decrease. |
|---|---|---|---|---|
| COTTON— | | | | |
| Weight | Mds 1,06,161 | Mds 1,43,018 | ... | Mds 36,857 |
| Amount | Rs. 1,38,446 | Rs. 1,63,708 | ... | Rs. 25,062 |
| WHEAT— | | | | |
| Weight | Mds 20,533 | Mds 51,832 | ... | Mds 31,299 |
| Amount | Rs. 11,688 | Rs. 28,709 | ... | Rs. 17,021 |

## PASSENGERS BY THE HOMEWARD MAIL.

The P. and O. Co.'s. s. s. Mirzapore, Captain A. Parish, will sail to-day for Southampton with the Europe Mails and the following passengers:—

For Southampton.

Major and Mrs Lewin and child
Mrs M E Henderson and 2 children
Mr and Mrs W W Cornwall
Mrs W Theobald
Mr and Mrs Pole and 2 infants.
Mrs H Reeves and infant.
Major and Mrs Manson and child
Mrs Maclean
Mr F Kilvert
Mrs Kilvert and infant
Mrs Starling
Mrs Smyth
Capt and Mrs Joseph and 2 children
Mrs Pinbey and 2 children
Mrs P Ball
Mr J McCabe
Mrs J A Baines and child
Mr H B Sterndale and 2 children
Mr J H Stone
Mrs Giertsen and infant
Mrs Fannin and infant
Col and Mrs Aynsley and 8 Misses Aynsley
Dr and Mrs Hojel and infant
Mr and Mrs Hall
Capt R Bartholomew
Mr Carter
Mr H R Maynard
Two Misses Mort
Mrs Still
Mrs Nihill
Mr J W Daniell
Mr J Williamson
Mrs Fellows
Miss Fellows
Miss Harwood
Mr Jenkins
Mr J Wood
Mr R Miller
A Gentleman
Mr and Mrs Vinall and infant
Major Smith's 2 children

For Brindisi.

Major R G Smyth.

For Venice.

Mr Marshall
Mrs Marshall
Mr Lyons
Mr T Bath
Mr S Shenton
Major La Mothe.

For Suez.

Mr N J Casey.

For Aden.

Fakey Mohdeen.

For Malta.—Mr J B and Mrs Turner.

For Marseilles.—Mrs Rayner and 4 infants.

## THE BOMBAY LEGISLATIVE COUNCIL.

The following is the list of business to be brought forward at a meeting of the Council of the Governor of Bombay for making laws and regulations to be held on Thursday next, the 27th inst. at 11 a. m.:—

I.—The Report of the Select Committee appointed to consider the Bombay Port Trust Bill will be presented to the Council.

II.—Bill and Order of the day—Bill No. 12 of 1878. The Bombay Port Trust Bill.—*Second Reading.*

III.—Notice of Motion—The Honourable Colonel Merriman will move for an extension of the time for receiving the Report of the Select Committee on the Bombay Irrigation Bill (No. 11 of 1878).

## THE BOMBAY VOLUNTEER RIFLE ASSOCIATION.

DISTRIBUTION OF PRIZES.

The distribution of prizes to the successful marksmen at the recent Bombay Volunteer Rifle Association meeting, by H. E. Sir R. Temple, took place on Saturday evening. The Regiment assembled about five o'clock in the Oval, in front of the Durbar tent which had been pitched for the accommodation of visitors, and was formed up in line to await the arrival of the Governor. In the Durbar tent were, among other visitors, H. E. the Commander-in-Chief (General Warre), the Hon. J. Gibbs, the Hon. L. R. Ashburner, the Right Rev. the Bishop of Bombay (Dr. Mylne), the Hon. Mr. Justice Pinhey, Major General Aitchison, Major General Burrowes, Major General Hewett, Mr. Arthur Crawford, Mr. Gill, the Rev. Mr. Lewis, &c., &c. The Governor rode on to the ground attended by Major Rivett-Carnac (Military Secretary) and Lieut. Plant (Aide-de-Camp), and was received with a general salute. His Excellency rode down the line, and afterwards the regiment marched past in column and quarter column and at the double, and finally advanced in review order to the front of the tent, where they were formed up in the shape of three sides of an oblong.

The prizes (a list of which and the winners has already been published) were then formally presented, after which His Excellency delivered the following address:—Volunteers—As this is an occasion connected with musketry I will close the proceedings by offering you a few remarks upon that branch—that important branch—of your duties. In order to do this I have conferred with several of my military friends, but more especially with your new adjutant, Captain Stokes, who is a qualified musketry instructor, with Lieutenant Rodick,- acting inspector of musketry to the Royal Fusiliers, with Major Moore, paymaster of that regiment, whose shooting you have all seen, and with Major Waring, late inspector of musketry for the Poona Division. Now, first of all let me remind you that it is the pride of the officers of our regular army in England that English musketry instruction is the best in Europe. For the purpose of musketry instruction there is a musketry school at Hythe, which has a commandant, a deputy assistant adjutant-general, a chief instructor of musketry, two lieutenant instructors, two quarter-masters, and so on. At this school all officers and non-commissioned officers, of both cavalry and infantry regiments, receive instruction, and it is owing to this school that in every European regiment in this Presidency there is a musketry instructor and a sergeant-instructor in ordinary times; and during the season just opened, I believe, in addition to these, an assistant musketry instructor allowed, besides many trained men selected from the ranks. Now that is the sort of system we ought to have for our volunteer corps, and it was with peculiar satisfaction that I observed that our Commander-in-Chief selected for the adjutant of your corps an officer who has qualified in the musketry school at Hythe. On this occasion most of the prizes have been won upon the system of what is known as schooling in teams—in team of eight, ten, or twelve. An English team of volunteers will defeat any team of regulars or volunteers in Europe but they will not beat a team that has been brought across the Atlantic, from America, and the reason, I am informed by my military friends, is that the Americans have a system of organization for the team. Some particular man is selected as captain of the team, and every member of that team is obliged to shoot according to that man's instructions, the result being that all the men shoot together, as an eleven of cricket play together. The consequence is that an American team can beat the best English team. There is nothing succeeds like success, and we must pay all respect to the American system, but at the same time remember that is a system of the organization which may not be equally suitable for active service, and for such service as you may one day be called upon to perform. With the American system, if the head man of the team was killed, the remainder of the men would be nowhere, whereas with the English system of arranging teams, every man shoots, as it were, of his own bat, every man is self-sacrificing, and one shoot by himself, army from what would have been if not a disaster, a very disastrous victory, at Ali Musjid, by his energy in the flank march, and in the first Bazar expedition he earned the emphatic approval of qualified critics. The exaltation of Brigadier Appleyard at his expense seems a very lamentable mistake of, which we have, probably, not yet heard the last." with or without his leader, and though our English team may not make up such a total score as our trans-atlantic cousins, yet remember our system has its peculiar advantages. Now, next I will recount to you the results of the last meeting for team shooting. At that meeting it was arranged to have 20 matches in all, and the first great was the number of competitors, something over 70 men, that the meeting had to be extended to six days. This fact, I think, shows the great and general interest taken by the corps in the competition. The high scores that were obtained during the first three days show that great attention was paid to the preliminary drill of the several companies of the corps, which is conducted by non-commissioned officers of the regular army, most of whom have been trained in the school of musketry at Hythe, which I have mentioned. Now this preliminary drill of a corps is of the utmost importance. It strengthens the muscles as well as the nerves, and it impresses the connection between the hand and the eye which is essential to good shooting. In the fourth place there is continuous practise at the ranges. Now that the rudiments of musketry have been learned at the prelimary drill this continued shooting at ranges is of the utmost importance. It has been illustrated by many remarkable instances in this very corps. The best shots of the corps admittedly are Sergeant Peaker and Volunteer Murray. Now it happens that both of these men are employed in the small arms ammunition manufactory at Poona. Can you believe that it is entirely fortuitous that the small arms factory should be the nursery of shots in Western India, perhaps two of the best shots in India? Surely this circumstance is not altogether due to chance, but is in some measure due to the fact that these two men have to prove the quality of their ammunition by firing at long ranges, the consequence being that continuous practice makes them good shots. I say this without any desire to disparage Messrs. Peaker, good volunteers as they are, I am sure they would be the first to tell you that it is this continuous practice that has made them what they are. Now there is another point which I am advised by my military friends is not attended to as yet as much as it ought to be. That is the judging distance drill. As you will probably be aware, the principal of this drill is that a man, or a succession of men, are stationed before the volunteers at known distances, so that each one of them may be accustomed to recognize the aspect of men at certain known distances, and from this experience become able to judge how men look at distances which are not exactly known. Thus, if a volunteer is asked what is the distance of a particular man, the distance being, of course, known to the examiner but not to the examinee, and according as his judgment approximates the destance so does he received marks. Now I venture to say if you are to practise your shooting for real service, service in which you are to pick off your enemies at known and unknown distances you must practice this judging distance drill very frequently. In the two matches which you have had with resident regular regiments, *viz.*, the 66th and the 7th Fusiliers, I believe you have been honourably successful, although the second match was sharply contested by the Fusiliers, with one or two splendid shots, Major Moore and Lieut. Rodick in particular distinguishing themselves. It is remarkable that the three highest scores in this match were exactly the same. Out of the utmost possible of 60 points, Lieutenant Phillips, Serjeant Peaker, and Volunteer Murray, of the Volunteers, scored 55; Major Moore and Private Kirk, of the Fusiliers, also scored 55. Now as to the other matches at the meeting. The first match was won by Volunteer Nicholson with a score of 37 points out of a possible 40 points at 200 yards. The match for Mr. Byramjee Jeejeebhoy's prize was won by Lance-corporal Mull with 36 points out of 40, the greatest possible numbers, at 600 yards. Sergt. Thomson won the match of Mr. Glover's prize with a score of 70 out of a possible 80, at 500 and 700 yards. I notice with the greatest pleasure that the third match was won by Sepoy Anna Sawant, of the 9th Native Infantry. The three medals for greatest aggregate scores were won as follows:—Gold medal, Sergt. Peaker, 520 points out of a possible of 686: silver medal, Volunteer Louis Frank, with a score of 468; bronze medal, Corporal Hall, with a score of 453. Volunteer Louis Frank gained less than three prizes, Messrs. Watson's prize, Messrs. Asquith and Lord's prize, and the Association silver medal being awarded to him. Another remarkable fact in connection with the meeting is that no less than two thousand rupees were subscribed to be given away in prizes. In mentioning to you for your encouragement that you have won two matches against regular regiments, I hope that this will not make you unduly elated, for you must remember that a great point with the corps should be a high average of shooting. Now your shooting for the year, as I reminded you on a recent occasion, was 79·18, or just below 80, which would have carried you out of the third class. You will observe that although you have been victorious over regulars in team shooting, you are much below the regulars in the average of shooting, for the figure of merit reached by the European army of the Bombay Presidency was in the years 1877-78, 97·68, or very nearly 98, as against your something below 80. This figure of nearly 98 is not considered a high standard by our Commander-in-Chief, so that you may imagine the standard he expects you will gradually rise to. The highest figure in any European regiment in the Presidency was 119 and the lowest 93, so that the lowest figure amongst the regulars was above your average, and the highest figure among the regulars was nearly 50 per cent. above your average. I don't mention this at all to discourage you. I am sure that the many distinguished military officers present will tell you that for the first year's shooting you did remarkably well. I merely make the comparison connecting that comparison with your success in the matches, in order that you may not be unduly elated, but that you may set yourselves like true British volunteers to the task of self-improvement. Now having mentioned these few practical points to you, as a man of business to men of business who are anxious to learn their military work, I will refer you for some additional remarks with regard to big gun practice to His Excellency the Commander-in-Chief.

H. E. the Commander-in-chief—Volunteers,—After the very elaborate description His Excellency has given you of musketry instruction it is almost a pity that you should be called upon to turn your attention to another subject, but as in response to the calls I made the other day 139 officers and volunteers offered to go through the preliminary course for big gun training I cannot refrain from doing so. His Excellency wishes me to explain to you that it is intended that the volunteers should be formed into detachments of ten men each; that the course of drill will be commenced after the other drills have finished. Two instructors from the Royal Artillery will attend and the preliminary drills will take place in the Town Hall enclosure on Tuesdays and Fridays in the morning and on Saturdays in the afternoon. The hours will be arranged by Colonel Sexton, who will fix such times as may be convenient. The preliminary instruction will be with the nine-pounder musketry bore gun, and subsequently, when you are able to work them, larger guns. Suitable clothing will be provided by the Government for the men engaged in these drills and a standard of efficiency will be fixed by the officer commanding the Royal Artillery, and those who are efficient will be permitted to wear a badge showing that they are gunners. The preliminary training with the nine-pounders will aid the men materially when they begin to work guns of greater calibre. In order that volunteers shall be properly trained as gunners, it is intended that they shall be supplied with a sufficient supply of blank and service ammunition. It is calculated that the preliminary drill will occupy about two months, supposing that each gun detachment attends three drills a week. It should be understood that when a gun detachment does drill it should be complete in its numbers otherwise there would not be sufficient men to work the gun, besides which it is important that the course of instruction should be proceeded with as soon as possible in order that the whole detachment may be rendered efficient. As you have been good enough to offer to go through this course of drills at a season when there are no other drills I have no doubt you will be able to form out of the number of fine men I see before me an efficient battery of gunners, without taking them away from the corps, or altering its organization or formation in any way; so that, in case of necessity, it would be able to assist and supplement the members of the Royal Artillery who are here in session, and who are not very strong in numbers. You must give attention to the preliminary drill, for no men can be useful for the big gun drill without their giving entire attention to the preliminary drills.

H. E. the Governor—Volunteers,—There is one further fact I wanted to mention, and that is that I have ascertained from the Army List of the Bombay Presidency, that no less than 142 European officers of the Bombay army, including both the European army and the native army, and the staff corps have obtained certificates, first or second class, from the school for musketry instruction at Hythe. I hope that very creditable fact will inspire you all to qualify according to the best standard of musketry instruction, and I hope that if we are all spared to meet again next year, we shall have still greater successes to chronicle. (Applause.)

Lieutenant-Colonel Sexton— Your Excellency,—On behalf of the regiment I have the honour to command I beg to thank you sincerely for the great honour you have done us this day to present the prizes so well earned by members of this corps. I also thank your Excellency and the Commander-in-Chief for the words of encouragement you have addressed us. I am sure they will be taken to heart by every volunteer present. Volunteers, I call upon you to give three cheers for His Excellency Sir R. Temple.

The cheers were then heartily given by the men, and three cheers having also been given for the Commander-in-Chief, the

# GRIFFITHS' PATENT WHITE
OR
# OXY-SULPHIDE OF ZINC PAINT.
MANUFACTURED BY
GRIFFITHS, FLETCHER, & BERDOE,
SEEL STREET, LIVERPOOL,

**Covers 100 per cent. more than Oxide Zinc.**
**Covers 25 per cent. more than White Lead.**
It retains its Whiteness under all conditions.
A Red Heat will not destroy it.
Will never Blister.
Is Non-poisonous—Has no Smell.
Has no Chemical Action upon Metals.

*The Patent Zinc White, or substitute for Lead, invented and patented by Mr. Thomas Griffiths, of Oxton, Liverpool, received the highest possible praise at the Meetings of "The Society of Arts and Manufactures," London, and "The Social Science Congress."*

THE Manufacture of "GRIFFITHS' PATENT WHITE," formed the subject of a lecture at the Society of Arts in the Spring of 1877, and has been reported upon by the leading scientific Chemists, Paint Merchants, Decorators, &c., &c. ; was brought before the Internationa; Congress of Hygiene, at Paris, in August 1878, by Professor Lutschaunig and Dr. Phipson ; and in the same month before the British Association, in Dublin ; in October, a paper was read upon it at the Social Science Congress in Cheltenham, by Dr. Bartlett ; and it was the subject of a paper read during the session of 1878 of the Paris Academy of Science. At the Paris International Exhibition, 1878, the highest distinction which was conferred upon paints, viz. : The only Silver Medal, was awarded to it, and at the Sanitary Institute of Great Britain it obtained the Prize Medal. It has been most favourably reported on in the "Lancet," "Engineering," "Engineer," "Builder," "Architect," "Chemical News," "Sanitary Record," "Society of Arts Journal," "Scientific American," "Journal of Chemical Society," "Moniteur," "L'Exposition de Paris," "Lloyd's Official List," "New York Tribune," "New York Times," "Comptes-Rendus," of the French Academy of Science, &c., &c. Copies of any of the above reports can be had on application ; also samples for trial.

So great has been the demand for it since its introduction, that the proprietors, who were producing about 25 TONS PER WEEK in Liverpool, have been compelled to purchase Extensive Works in London, where they can manufacture about 50 TONS EXTRA PER WEEK. They have also had to secure sufficient room to increase the production to 200 tons weekly, making them the largest producers of White Pigment in Europe.

WHITE LEAD possesses only one good property, viz., "covering power," it is poisonous, soon loses its opacity, and turns yellow with Sewer and other Gases, and prejudicially affects Iron and other metals.

OXIDE ZINC has scarcely half the covering power of lead, but it is whiter and retains its colour.

GRIFFITHS' PATENT ZINC WHITE has all the *good* properties of both the above without any of their drawbacks, viz., it has far more body than Lead, has double that of Oxide Zinc, has the same whiteness, will never change colour even in sulphuretted hydrogen (which destroys lead) and does not lose its opacity by age. It is calcined at a red heat in its manufacture, hence is almost indestructible, and, of course, will stand any Variation of climate. Its durability is such that it is admirably adapted for protecting Iron, Wooden or Cement Structures in any exposed situations, from the effects of the weather.

PROFESSOR PHIPSON says : "It is one of the most ingenious and useful discoveries of modern times."

GRIFFITHS' PATENT NEW ZINC WHITE is at present used by the English and other Governments as well as large private firms.

Full reports from the highest scientific authorities in the kingdom, gratis, on applying to any Agents of the "Silicate Paint Company," Liverpool. The following are a few who have reported on this new pigment :—

PROFESSOR BARFF, M.A., Lecturer on Paint and Colours to Society of Arts, Chemist to Royal Academy, &c.

JOHNSON & SONS, Assayers to Bank of England, H.M. Mint, Council of India, &c.

PROFESSOR LUTSCHAUNIG, Liverpool Assay Office.

DR. PHIPSON, Fellow of Chemical Societies of London, Paris, and Antwerp ; and of Royal Society of Natural Sciences, Brussels.

H. C. BARTLETT, Ph. D., F.C.S.

T. A. BRITTON, Surveyor to Metropolitan Board of Works.

C. H. TOZER, Decorator, and other Practical Men in the trade.
